

Season 1 Episode 1

Genesis Part 1

A gray-haired short round guy sits at a crystal ball in a dark and mysterious room. He looks over his crystal ball. The man said, "Crystal ball, how do I take over the Ultraverse?" The crystal ball said, "Figoni, you must located the one. The Yin-Yang chosen one." Figoni said, "How do I find this, Yin-Yang chosen one?" The crystal ball said, "You will know when you find him. Only he can bring true rule over the Ultraverse. Something tells me that he goes to the high school you are principal of. He has been held back a year but he is supposed to graduate at the end of this current school term." Figoni said, "You are filling in a lot of blanks. I think I know who this is." Figoni looks at a newspaper and Ivan is on the front cover wearing a Yin-Yang T-shirt and it shows him being honored.

Ivan is at some social section in the school. The principal enters and he said, "Ivan, I need to see you." Ivan goes to the office. Ivan said, "Principal Figoni, why must you see me?" Figoni said, "Ivan, your marks have dropped drastically. They have gone to a place unimaginably bad after that last project of yours." Ivan said, "I slaved over that project. I did a lot more than what was requested of me." Figoni said, "That may fly with some people but it won't fly with me. I think you should stay yet another year. I think you deserve to be a student here until the end of your life." Ivan said, "You can't do that. I must report this..." Figoni said, "Who's gonna believe you? I have control of all the school councils and I have it good with the governor. You can fight me but you are going to end up in prison for going against an authority figure like me."

Ivan is kicked out of the school for the day and Ivan walks down a suburban street and he enters a door on an old house that leads to the basement. Ivan said, "Dad, are you here?" Ivan's father walks out and he said, "Ah, Ivan, look at this..." Ivan's father shows Ivan a cold fusion conductor. Ivan said, "What is that?" Ivan's father said, "It is my new cold fusion conductor. I think it is better than that automated coat rack you made last year." Ivan said, "I've moved away from petty everyday inventions like that. Like this..." Ivan takes out a stick of gum. Ivan's father said, "What is that?" Ivan said, "It is a USB Memory stick. I think these things will replace floppy discs in the future. I can store a ton of emulator roms on them." Ivan sticks the memory stick into his father's PC and they grab controllers and they play a game. Ivan and his father enjoy themselves playing emulated games. Meanwhile, there is a small droid that is in the window and it is watching Ivan and his father. Figoni is in his lair again and he watches the footage. Figoni looks through potions and experiments and he grabs one and he said, "Ivan seems to be very much attached to his father. Let's see how he does with this."

Ivan is still at his father's place and Ivan said, "Dad, I have to ask you about something." Ivan's father said, "Is it about girls because I went through the same thing when I was your age." Ivan said, "No it is this principal that I swear is doing all he can to stop me from finishing high school. I don't get it. I put a lot of effort in my work and it is more than everyone else and the teacher likes it but the Figoni fails me. It happened last year when I was supposed to graduate. It looks like it will happen again this year too." Ivan's father said, "I wish I could have a talk with this, Figoni. But they won't believe me and I am sure he is just

saying this to scare you. I don't think he would really do anything bad. There's a reason why they're called, Principals. They are the prince of the pal." Ivan said, "Sure they are."

Ivan walks down the street and a group of thugs surrounds Ivan. The thug leader said, "Where is your USB?" Ivan said, "What is a USB?" The thug said, "I know you are lying so hand it over." Ivan said, "I don't know..." Ivan sees the thugs are armed with ninja weapons. They crowd around Ivan. Ivan screams, "HELP!" The thugs get closer to Ivan and a mysterious figure jumps out and fights off the thugs. The thugs lie down on the ground defeated and Ivan sees the man that saved him. It is an old bald Korean martial arts master that has a long mustache and is dressed in white robes. The old master said, "Come with me, Ivan. I need to show you something." He grabs onto Ivan's arm.

Ivan appears in a dojo. Ivan said, "Why am I here?" The master said, "I can tell you that. I am master Mung Sun Moon. I am a master of the Ultraverse Monks and you are the Yin-Yang warrior that has been prophesied for generations. I did not think I would make it this long to finally meet him. Let me explain who you are and let me tell the story..."

Master Mung Sun Moon tells the story. Master Mung said, "Hundreds of years ago, the creator of this universe, Mystika, was told that if he really wanted to protect his proudest creation which is this universe, he needed to create a savior. Every great story has to have a main character in it and he needed a main character for the overall story of this universe. He needed a boy that was brilliant and talented and could kick butt. He then wrote that there would eventually be such a character that would occur with the natural flow of time." Ivan said, "I don't get it." Mung said, "Neither do I... now where was I... oh yeah, so Mystika ultimately chose you. Sure, there were plenty of other heroes in the universe (shows a picture of Jason and Mason) but he needed someone more unique. He needed someone that is unlike anything seen before. He also needed this hero to beat his rival. Mystika's rival is a man named Fighi. Fighi was also an Ultraverse Monk that wanted to rule as much of the Ultraverse as he could. He thought that Mystika's universe was a good starting place so he tricked a way into getting in and he has lived in the universe since. He seeks the Yin-Yang chosen one because he knows Mystika is the ultimate dictator of the universe and you are the only one that can stop him. He will break the rules and do all he can to get rid of you so he can take over this universe and it will be the first in his long quest to ultimately take over the entire Ultraverse." Ivan said, "I have never heard a story more confusing in my life." Mung said, "I only tell the stories. I don't write the stories. That is someone else's job. I also suggest you get help from as many friends as possible. Friends are what make the Yin-Yang chosen one stronger. With an army of friends and allies, there is nothing he cannot achieve. I will be your ally and I suggest you round up some more." Ivan said, "Is this a training dojo?" Mung said, "It is for if you want to train. I train in here and I throw wild parties here sometime. You should come to them. One time the police and the fire department had to come to my party for how wild and insane it was. I digress."

Ivan is in Mason's lab sitting at a table with Mason while Jason plays with stuff in the lab. Mason said, "I am quite flattered. I have only known you for a few months and I am the first friend you came to for help." Ivan said, "This is a scary and confusing time. I thought you of all people would understand." Mason said, "I do understand. It is a gift and a curse. Let me see that memory stick of yours." Ivan hands Mason the USB memory stick and Mason places it in his lab's computer. Mason accesses the files on it. Projects Ivan made on possible universes appears and writings related to Mystika and Justice Knight appear on the

screen. Mason said, "This is the original unaltered project you speak of?" Ivan said, "It is and I fear Figoni may destroy this USB stick if he knew I had this data on it." Mason said, "I can help with that." Mason copies the documents onto his computer and Mason said, "Your files are safe in this lab. I just installed an updated security system so I don't need Orbot around to guard the lab 24/7 anymore." Orbot appears next to Ivan and Orbot said, "Now I have more time to connect with other robots online." Jason walks up to Ivan and Mason and Jason said, "I would gladly fight for you. You got us out of a tight jam back in the Coalition War. I guess we owe you something." Ivan said, "Thanks."

At Ivan's father's place, Figoni breaks in and he sees Ivan's father is asleep on his bed watching a movie. Figoni reaches and grabs a beaker and he pours the contents of it around Ivan's father. Green lines form around the room and they engulf Ivan's father and he is gone. Figoni pours potion fluids everywhere and he bolts out of the place just as it catches on fire.

Ivan is in class the next day and a guy dressed as a clown enters the room and he does a dance and he said, "Guess who is not graduating this year..." The clown waves his pointy hands around and he points to Ivan. The clown jumps around and he said, "Ivan is not graduating and he is going to be here next year and the year after that." Everyone in the class points at Ivan and laughs.

Ivan gets home and his mom is crying her eyes out. Ivan's mother said, "Ivan, your father is dead." Ivan's eyes go big. Ivan and his mother look over the burned remains of his father's house. Ivan said, "This doesn't make any sense. How could a fire start in his room? There was nothing in his room that could catch on fire." Ivan's mother said, "Well, you don't know. There could be all sorts of things that can catch on fire and explode and..." Ivan said, "Did you find the remains?" Ivan's mother said, "The reports say your father was never found." Ivan said, "I don't think he's dead. I think there is something else up." Ivan's mother said, "All kids say that when they lose their parents." Ivan said, "There have been a lot of strange things going on lately and I think that principal Figoni may have had something to do with it." Ivan's mother said, "You can't just accuse people of things because they all happened at once." Ivan said, "I doubt any of those people were in a predicament like this."

Ivan goes to a special class he is ordered to go to and it does not have very many kids in it. Ivan looks around and he sees a punk girl that keeps looking at him and he sees Dirk the school bully and some nerd kids. The class ends and the instructor orders Ivan to see him. The teacher said, "Look, I don't like that you handed in this report of this bogus Justice Knight and Captain Fusion. The principal told me about you and he told me that you make up all your answers. I hope you like looking at the blackboard in here because you will be seeing one the rest of your life." The girl said, "Ivan, why don't you come and hang with me?" Ivan said, "Sure thing..." Ivan leaves the class and he walks with the punk girl. The punk girl said, "That teacher just likes enforcing things he's told. It is his job. That's all he does. I'm Safron by the way." Ivan said, "I'm Ivan." They shake hands and Safron said, "I already knew you were Ivan." Ivan said, "You know..." Safron said, "I have read about you in the paper. You made those inventions and you served on Coalition Mason on team Fusion. You were with Captain Fusion when those buildings collapsed and left you stranded in downtown. I would be panicking if something like that happened to me." Ivan remembers that Mung told him to have as many friends as possible." Ivan said, "Do you know anything on the principal?" Safron said, "My father tells me he is a big jerk and he just likes to torment kids for fun." Ivan thinks, "We have a lot of brains but we need more..." Ivan sees Dirk in the hall grabbing a

nerdy kid by his underwear and throwing him against the wall and the nerd's money comes out. The nerd grabs all the money and dashes off. Ivan and Safron come across Dirk and Ivan said, "Dirk." Dirk said, "What's it to you?" Ivan said, "The principal is behind some plot to turn us into his slaves and I need someone that knows things about him to help. Something tells me you can help us." Dirk said, "What's in it for me?" Ivan said, "You get to take down the principal and you will be free of these, 'special' classes he makes you take and I will pay you." Dirk said, "How much?" Ivan looks in his wallet and he pulls out a ten-dollar bill. Ivan said, "Here's ten dollars now and I will give you the rest when you do our bidding." Dirk said, "This is better than working another shift at MacDoogal's."

Ivan brings his new friends to the dojo and they make a plot. Ivan said, "At 3AM, we will send Dirk to break into the main office room and he will snag the principal's physical files and he will take his computer and replace it with this fake computer I made. We will keep watch and alert Dirk if anything happens. I have been seeing thugs around here lately and we must be ready for anything." Safron looks at Ivan and she said, "My hero." Safron hugs Ivan. Ivan said, "This plan better work."

Ivan and his friends sit in the back of a van that is being driven by Mung. Mung hides the van in the bushes and Ivan, Safron, and Dirk use suction cups to stick to the walls of the school building. They climb to the top and they arrive. They mount a cable reel and they tie Dirk to the cable. They send Dirk down a vent and he gets stuck in it. Dirk squirms around and he breaks the vent tube and he falls and lands in Figoni's office. Dirk replaces the computer with the fake one and he grabs the entire filing cabinet. Safron said, "How do you expect we will reel him up with all that weight?" Ivan said, "I am an inventor, remember?" Ivan takes out strong metal gloves and he puts one on and he gives Safron a pair. Safron said, "My Ivan always thinks ahead." They pull Dirk up and just as he's getting up, Figoni enters and he sees Dirk with his files. Figoni said, "Dirk?" Figoni throws a ninja star and it cuts the cable and Dirk falls to the floor. Figoni picks up Dirk. Figoni said, "I never would have guessed you would come to the school at night." Safron said, "We need to rescue Dirk." Ivan said, "If Figoni knows he's here and we are in cahoots with him and then..." Ivan and Safron look around and they see they are surrounded by thugs. The thugs handcuff Ivan and Safron and they are brought into an armored truck. Ivan yells for help and Mung sees and hears this from his van. Mung watches Ivan and his friends get dropped into the armored truck and it drives off. Mung follows the armored truck. They drive down a freeway and they drive down an exit loop and they end up at a bizarre antenna tower.

Figoni exits the armored truck and he brings Ivan and his friends out. Figoni said, "Now, you are wondering why I brought you out here." Ivan said, "Do you bad guys always state the obvious?" Figoni said, "You know that this universe and Ultraverse and truly mine because I exist and I found a way I can control multiple universes at once. I can activate the switch on this control tower and I can fill up the computer on it with your information and it will use the power built inside the Yin-Yang warrior to open this control nexus and I will be the ruler of the Ultraverse. Everyone in the Ultraverse will be my slave and they will bow down to me." Figoni reaches in one of Ivan's pockets and he pulls out Ivan's USB memory stick. Figoni said, "I know what this is. I have been watching you since the beginning. I have all the information in here to send signals to my followers throughout the Ultraverse. They will know everything about you and your work." Ivan and his friends take a deep gulp. Figoni inserts the USB memory stick into a USB port on the computer. Mung jumps and kicks the stick out of Figoni's hand. Ivan said, "Mung!" Mung waves to Ivan and he said, "It's me, Ivan." Mung

runs to Ivan and he breaks the handcuffs on Ivan and his friends. Mung said, "Let's not let him get away." Ivan said, "Did you grab the USB?" Mung said, "Dang it! I knew I forgot something." Figoni grabs the memory stick and he places it into the computer and it sends signals to the other universes. People in other universes that worship Figoni as a god see the anti-Ivan propaganda.

Thugs come after Ivan and his friends. Mung fights a few of them off. Ivan tries to fight them off. Ivan is weak and his attacks don't do much. Safron trips one over and the thug falls and smashes into another one. Mung fights off most of the thugs as Ivan stands off on the sidelines. Mung said, "I think that was the last one. Where is Figoni?" Figoni walks through a door and enters the room and he is in a giant robot suit that is laced with cool blue lines. Figoni said, "Remember that cold fusion thingy your dad made? I stole that from him and look what I made of it. You didn't think I was this clever did you?" Mung said, "I can take him." Mung jumps and he karate chops the side of the robotic suit and Mung's hand is smashed and it becomes icy to a point where it is red. Figoni grabs onto Mung and he throws Mung out the window. Figoni surrounds Ivan and his friends. Figoni said, "You're doomed." Dirk said, "Now I know how those nerds feel." Safron said, "You won't have us. I'm sure my father will break you down!" Figoni said, "Your father is just some fool that hangs in a basement all day. He probably wanted to get rid of you." Safron said, "How dare you say that." Figoni grabs Safron and Safron kicks the robot and it does nothing. Safron gets iced up and she falls to the floor as a frozen statue. Figoni said, "Anyone else want to step a toe out of line? This is my other ultimate weapon." Figoni shows Ivan and Dirk a machine he has that has a helmet component. Figoni said, "This is a machine I made that can wipe out your memory completely. Ivan will be first." Figoni grabs Ivan and he pulls him to the machine.

A rocket comes flying and it gets stuck in Figoni's robot suit and explodes and Figoni drops Ivan. Figoni said, "Who threw that? I'm taking names." Mason is in his robot mech and he flies around outside and he fires more plasma balls at Figoni. Figoni climbs up the tower and he launches a large surge of energy at Mason and Mason rolls out of the way. Atomic Jason zips in and he grabs Figoni by the foot and he lifts him high in the sky. Atomic Jason drops Figoni and Figoni extends a hand to Atomic Jason and it grabs Atomic Jason and it shakes him and pills come raining from him. The pills rain on the ground and Ivan sees them and he gets a flashback to Jason and Mason Coalition when he had to take a pill to get superpowers. Ivan takes one of the pills. He shows one to Dirk.

Atomic Jason is smashed into the ground and Jason said, "I feel weak. I feel my power is fading." Atomic Jason fades back into regular Jason. Mason is still in the air in his mech and he fires a volley of missiles and plasma balls at Figoni. Figoni dodges them and he punches a plasma ball and it hits the head of Mason's mech. Figoni fires another charged shot with the antenna and it direct hits Mason's mech and it falls apart into small pieces of debris and Mason goes falling to the ground. Mason sees his fall is quite big. Ivan is the Yin-Yang superhero again and he grabs Mason and takes Mason down to safety. Ivan said, "By the way, how did you know I would be here?" Mason said, "I added tracking GPS software onto that drive of yours so if signals ever get transmitted from it, I will know where it is. I figured you'd be near." Ivan and Dirk are overpowered and they surround Figoni. Figoni said, "Look guys... we can just... FREEZE!" Figoni fires a lot of ice at Ivan and Dirk and it does nothing. Dirk smashes the back of the robot and Ivan chops it down the middle and the suit falls apart. Figoni is left surrounded by Ivan and his allies. Figoni said, "You are too late. The people of the Ultraverse know you are bad and they will do all they can to bring you

down.” Ivan said, “I will never let you win!” Ivan gets painful flashbacks of earlier parts where Figoni wins over Ivan. Ivan grabs Figoni and he places him in the machine and he places the helmet component on Figoni and he uses the machine to wipe out Figoni's memory.

Mystika enters the scene and he unfreezes Safron by laying a finger on her. Safron said, “Dad, you've come.” Ivan said, “Dad?” Safron said, “This is my father, Mystika. He sent me to this universe to find you and bring you to the Ultraverse.” Ivan said, “Why would I be needed there?” Mystika said, “It is your destiny. Almost no one in the world has the opportunity that you have now. You are the Yin-Yang chosen one and it would be an honor for you to come to the Ultraverse and help defend it from bad guys like Figoni. My daughter is a Monk in the Ultraverse. Being an Ultraverse Monk is one of the highest honors anyone can receive. You can bring your friend Dirk along too. I also think Safron would love to work with you in the Ultraverse.” Safron gives a cute look to Ivan. Ivan said, “I guess there is nothing here for me now. School keeps giving me nothing and I don't seem to have much of a future so... why not?” Dirk said, “I have nothing better to do so, why not?” Mystika said, “This is perfect.” Mystika grabs Figoni and Mystika said, “We must arrest Figoni and take him to Ultraverse Prison. Come in the portal to the Ultraverse.” Ivan and the rest of his close friends walk into the portal.

Ivan is in the Ultraverse and he gets registered at the monk academy. Ivan is given a robed uniform that still allows him to wear cargo shorts and have a belt with the Yin-Yang on it. Mystika and Safron show Ivan and Dirk around. Mystika takes them to an office and Mystika said, “This is Master Augi. He is the Grand Master of the Ultraverse Monks.” Augi shakes Ivan's hand. Augi said, “Ivan, I have been hearing quite a bit about you.” Ivan said, “Everyone has.” Augi said, “I heard about your father. He is not dead. I think he was brought to an unknown place but it is probably somewhere here in the Ultraverse. I think you will find him during the course of your travels.” Ivan said, “I knew he wasn't dead.” Mung said, “He's not and I will continue to train you too.” Ivan sees Mung and Mung is in a wheelchair and he has a cast on his head. Mystika said, “I guess this is the perfect place for a long story to begin.”
